HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 12, 2008 has been entered.
2. Applicant's amendment dated March 12, 2008, responding to the Office action mailed December 12, 2007 provided in the rejection of claims 1-38, wherein claims 1, 3, 5, 23, 25, 27, 31, 33, and 35-36 have been amended, claims 2, 7-8, 15-22, 24, 29-30, 32, and 37-38 have been canceled.

Allowable Subject Matter

3. Claims 1, 3-6, 9-14, 23, 25-28, 31, and 33-36 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fails to suggest "collecting a loop trip count continuously during runtime of a region of code being executed ... calculating an average trip count continuously during runtime ... classifying each average trip count to be in one of a plurality of conditions ... dynamically applying, during the same runtime, the one or more applicable code modification techniques ... when the average trip count classification changes ... halting the trip count data collection during the same

runtime ... removing one or more monitoring counters, during the same runtime ...", as recited in independent claims 1, 23 and 31; and "... counting consecutive intervals of time that do not have a trip count classification change ... halting the trip count if the consecutive intervals of time without a trip count classification change exceed a threshold value ... removing the one or more monitoring counters from the code relating to the loop ... applicant's limitations deal with (1) trip count classification changes, (2) halting the trip count monitoring, and (3) removing trip count monitoring counter ...", as Applicant pointed out on page 13, first paragraph through page 15 in REMARKS of the amendment.

Therefore, the claimed invention can use efficient algorithms to continuously profile for trip count with less optimization overhead and enables advanced loop optimizations in dynamic binary translators.

5. Claims 3-6, 9-14, 25-28, and 33-36 are considered allowable by virtue of their dependence on allowable independent claims 1, 23, and 31 respectively.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
